## A Bunny Or A Lamb

Many kids (and even some adults) when asked the question, "Is Easter about a bunny or a Lamb?" will answer that, "It is about a bunny."

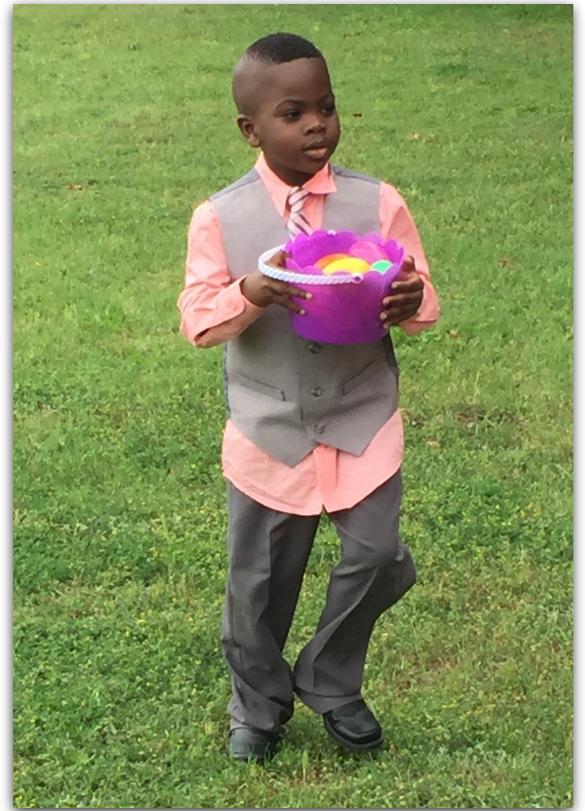

That is what the enemy would want you to believe, but it is not.

Easter is a great time of year! The very idea that God would become human, live with us for about 33 years then willingly become the sacrificial lamb to pay for our sins is just too big to imagine - but it is true!

I am including some pictures of our Easter to give you an idea of how we celebrated this wonderful holiday.

The most memorable part of the day was during Church when a number of people shared the real story of what we are celebrating on Easter. No one could leave that church service without a clear understanding of what Easter is about.

Eat the chocolate bunny, enjoy the easter egg hunt but through it all remember that Easter is about a Lamb - the Lamb of God given for us!

Thank you for your prayers and your giving. You make our ministry possible!!

In His grip,

John

### Answered Prayer

Our prayer requests last month mainly concerned our trip to England. Thank you for those prayers!!!

### Prayer Requests

Continue to pray for contacts within the Dallas/Fort Worth area for Churches who are wanting to reach out into their communities and are willing to start a SAY Yes! Center. Also pray for Churches, schools and other organizations who want the training we provide as part of Life Is Full Of Choices.

\*\*\*\*\*

Pray for safety as we travel to England. As we have heard on the news recently, London is not a safe place - but we are sitting in the center of Gods hands. We are not afraid- but we need your prayers.

Pray for the surgery that Sally will have done on her foot.

- For the Doctors and her recovery
- That the surgery will be successful
- For our ability to meet her needs as she is flat on her back for 5 weeks.

Pray for our health as we are traveling!

For the food and water we eat and air we breath. Once again this is not something that scares us, but all little things that are in everything we eat and drink can cause problems.

And finally for the seminars John Childress and I will be leading as part of their ministry. Pray that lives will be touched and changed!

### England

Thank you for your prayers about our trip to England. The time has come and we are ready!

Because of the timing of our trip, this prayer letter is a little early and the next one will be a little late. Also no receipts are included in this months newsletter. We will send those next month.
